Graaab JaGaApp

1. A low cost solution that replaces and enhances the traditional wired intercom systems, which are expensive to install, prone to wear and tear and is a fixed point-to-point system.

2. Provides enhancement to the existing security with the Emergency Assist function which will help notify the guards, family members as well as other contacts in the event of an emergency.

3. Push Notification Noticeboard allows for easier dissemination of information for example maintenance works and other community notices. The Graaab Notice Board is a one way communication from Management/ Committee to Residents.

4. Visitor Registration function which enables residents to pre-register their visitor for a more speedy entry whiles maintaining security.

5. Community Forms enables all community forms such as access card requests and renovation forms to be filled up by residents in-app and posted to the management or RA Committee. This eliminates the need for paper and allows the residents to fill-up forms on-the-go.

6. Facility Booking brings convenience and efficiency to all parties, the management office, and the residents. Residents can now book the BBQ pits, tennis courts or any other communal facilities at their convenience on their phone.

7. My Feedback is created to allow residents to communicate (one-to-one) with the administrator ie. Building Manager, RA Committee or Developer, on issues such as presenting maintenance fees bank-in slips, complaints or compliments.
